Life Just Got Better.[®]

Volume Controls • Touch Panels • Touchpads • Volume Controls • Touch Panels

A Home Filled with Convenience, Comfort & Style

From easy, one-touch access to your home entertainment, to controlling your lights, climate, security and home theater – ELAN has a simple, elegant way to control it all.

If you want the basics or the elaborate, ELAN controls provide you with wonderful, newfound freedom to move about your home with one-touch access to what you want – where and when you want it.

Enjoy the widest, award-winning variety of attractive home controls that can fit your lifestyle and budget. From simple products that adjust volume, to keypads, and up to the new Olé® Touchpads and our family of ELAN Touch Panels, you can benefit from a stylish, intuitive interface that's *designed just for you*.

- Adjust volume from any room
- Set the mood with music and lighting
- Watch the kids by the pool
- See who's at the door
- Enjoy the power and excitement of Home Theater
- And beyond...

With ELAN, your entire home is now at your fingertips.

Clean & simple.

Volume Controls

To enhance your lifestyle and listening experience, ELAN's Volume Controls offer remarkable convenience and simple operation.

As the pioneering leader in multi-room home audio, we offer many high performance products that allow you to enjoy music in every room. A key part of your enjoyment is how simply you can adjust sound levels.

Our state-of-the-art Volume Controls provide smooth volume adjustment in any room you wish. These offer superior design, yet are affordable options that can meet virtually any need.

ELAN Volume Controls feature superior patent-pending technologies including Equi-Step™, which provides equal volume increments over all 12 steps for a consistent, whole-house listening experience and override circuitry (available on many models) so that in-home paging and door chimes can be heard over speakers.

- Simple control of volume
- Superior patent-pending designs
- 6 colors to suit

*Blends perfectly into your environment
with six available colors.*

Stylish & affordable.

Olé® – The Designer's Touchpad

With Olé®, the world's first Film Interactive Touchpad, you can add a home control product that adjusts to your lifestyle, home, and your wishes – all in one.

The award-winning Olé is a breakthrough new home control product that uses colorful slide-in films and custom wall frames to match your home, and a selection of user-friendly button layouts tailored to suit your home control needs.

Available in two models, Olé marries the magic and beauty of touch screen technology with the simplicity – and price – of a keypad to bring you personalized and affordable home control that's a FIT for any room.

- Décor-matching, slide-in films
- Patented design
- Responsive graphical control for the price of most keypads

Personalizes control for every room and home.

Vision & possibilities.

Olé Design

Fits in anywhere.

Olé offers dozens of possibilities for individual expression, bringing you a beautiful selection of colors, themes and textures to express your style and define your space.

Inspired by the world around you, Olé touch films bring nature and technology together in a seamless way. From the earth tones of the southwest to the sleek techno-styling of an iPod®, there's an Olé look to complement any room or personality. And you can choose from 12 different frame colors and styles. Image the possibilities with Olé.

Personalized & expressive.

Olé Films

Every Olé can be easily personalized with a collection of slide-in films in a variety of colors, styles and themes. These beautiful, photographic-quality films transform each in-wall controller into a work of functional art that enables easy, intuitive control of your multi-room entertainment system.

What's more, each Olé can be customized to meet the level of control desired in any room. Each film style is available in 17- and 25-button layouts, allowing you to select from basic or complete control of the system depending on your needs and the room.

Reflects your style and personality.

Olé Frames

Matches your décor with color frames.

Complete your vision with a choice of two finely contoured wall frames in a variety of colors – you have 12 different options.

Standard frame in white

The Olé Standard Wall Frame

Specifically designed to bring uniformity to a room by matching the look and dimensions of today's popular light switch plates.

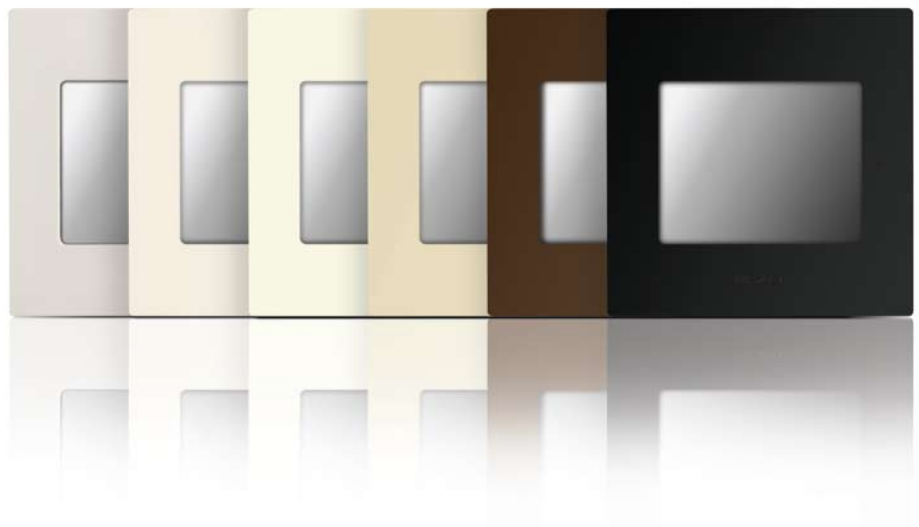

Euro frame in white

The Olé Euro Wall Frame

Smooth, rising contours with rounded corners. Distinctly European.

*Both frames available in these six décor-matching color options:
white, light almond, almond, ivory, brown and black*

Sophisticated & powerful.

Touch Panels

Experience the power of complete control with our wide range of in-wall, under-cabinet and wireless touch panels.

Simply touch the responsive surface and you'll see beautiful color graphics that provide you with instant control of many in-home systems such as lighting, climate, entertainment, security and home theater – just to name a few.

Sleek designs across the entire line combine with the unique ability to change their colors and styles to match every room.

- Brilliant, full-color graphics
- Control of lighting, climate, entertainment, security, and more
- Music and movies at your fingertips
- Live, full-motion video on most models
- Screen motifs and frames match décor
- And much more...

Enhance your home by eliminating the clutter of remotes and switches.

In-Wall & space-saving. **VIA! Touch Panels**

Saves space and adds convenience.

For areas where you desire full control and video monitoring, the award-winning family of VIA! Touch Panels offers four incredible models.

With a four-inch VIA!4.0-EM, you'll enjoy the benefits of whole-house control in a mini package for an incredible price.

For larger, often-used areas, move up to the popular VIA!7.0-EM for a wide-screen, 7-inch format.

And for those special areas, the in-wall VIA!10.0-EM and VIA!Valet10.0-EM Tabletop/Under-Cabinet Touch Panels feature wide, 10-inch displays that give you larger, easy-to-use control of everything.

All VIA! Touch Panels are also sleek video monitors that allow you to catch up on the latest news and weather, or see who's at the front door!

Feel free to mix and match VIA! panels throughout your home. They're all compatible and with every ELAN multi-room controllers.

- Space-saving, in-wall designs
- Flexible tabletop/under-cabinet version
- 4-, 7- and 10-inch models
- Video monitoring
- Best prices of any touch panel in their class

Smooth & tasteful.

VIA! Stylish Frames

You've invested a lot in your home – great furniture, artwork, coordinating carpet and countertops. Why shouldn't your electronics match? Now they can.

All VIA! in-wall models let you customize the look and enhance your decor using the frames/trim plates that surround the in-wall touch screen.

Simply blend VIA! right into your wall for an unobtrusive look using our five standard available colors or finishes. Or go for a contrast – it's all up to you.

- Blends seamlessly into your home
- 6 colors, depending upon model
- High-quality plastic finishes

Our in-wall panels come standard in white.

*VIA!4.0EM, 7.0EM & 10.0EM frame options:
light almond, almond, ivory, brown & black*

Matches your décor with color frames.

Convenient & mobile.

ELAN Wireless Touch Panels

Fits in anywhere.

Let loose with ELAN's two high-performance wireless touch panels!

The N800 Handheld Touch Controller and XP-8.4 Wireless Touch Panel give you all the stellar colors and room-matching motifs of the VIA! line – but with no strings attached.

Control lighting, climate, entertainment, security, home theater and more with these sleek handheld controllers.

The N800 fits in the palms of your hand, yet is powerful and user-friendly. The XP-8.4, with its large 8.4-inch screen, is ideal for complete wireless control of your home theater or media room.

Both wireless models feature built-in Web browsers with the latest Flash® Player support that lets you stream Internet audio/video and view the most vivid content on the Web.

- Reliable wireless control of entertainment, theater, and whole-house systems
- True Web browsing with streaming A/V and Flash support
- Matching VIA! and Olé screen layouts and styles

Colorful & unique. Choose Your Motif

Just as you select custom cabinetry and artwork for your home, you can customize your ELAN touch panel. In addition to our uniquely-colored frames, we provide you with a variety of décor-matching screen “motifs”.

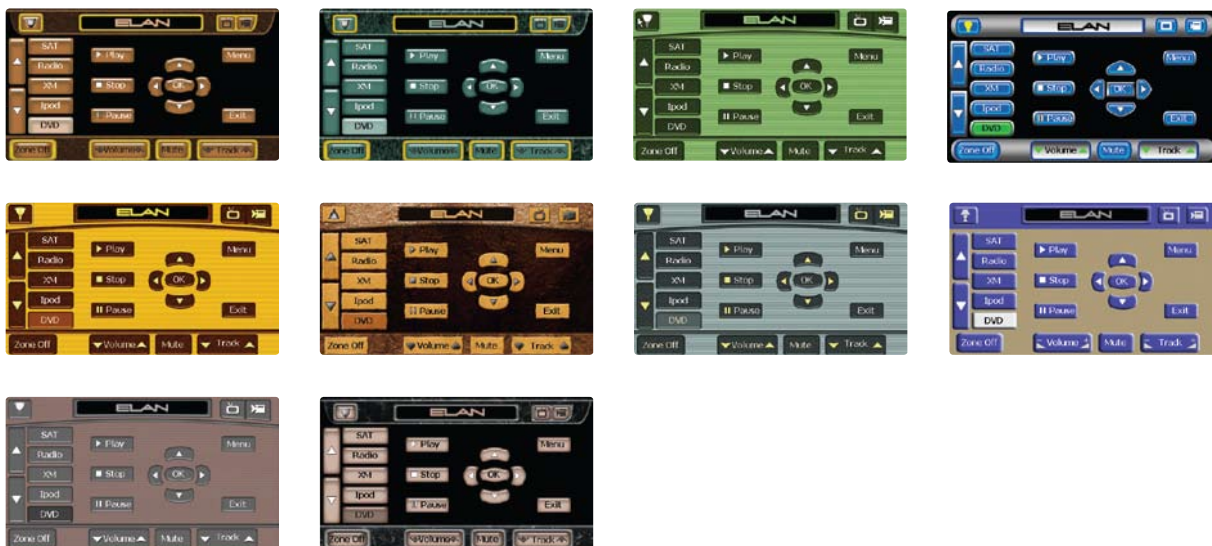

Choose the color and style that reflects your individuality. Pick as you wish to suit every room. Our touch panels offer the perfect blend of form and function.

- Choose your color and style with custom screen “motifs”
- Selected different motifs to suit every room

Reflects your style and personality.

Your Color & Your Style

Choose by color or by style. From warm and cool colors to wood grain or Cosmopolitan – and more – ELAN makes it your own.

Options & Upgrades

Make your home everything you've ever dreamed of by taking any ELAN system or interface and adding these unique options:

iPod® music & video everywhere.

Leave your headphones behind. Sit down, relax and enjoy ... because all those wonderful tunes and videos in your iPod® can now be heard and seen everywhere in the house with the VIA!migo™ iPod® Integration Dock.

Enhance family communications.

Busy in your office and want to hear the front door? Like to expand your telephone and use it as an in-home intercom or paging system? Simply add the ELAN C2 Communications Controller and get door chimes, whole-house paging and intercom features.

Keep an eye out.

Imagine seeing who's at the front door from any TV or ELAN panel in your home. Simply add one of our door stations with a camera and communications controller.

Video galore.

If you are a video buff, ELAN's System12 is for you. Take video from your Satellite, DVDs and VCRs and send them around the house to every TV or touch panel. Watch movies, news – anything you want, from any room. ELAN – finally a show everyone can agree on.

Options & Upgrades Continued . . .

Speakers for every need.

Indoor or out. In-wall, in-ceiling, or in the home theater. Designed by some of the finest acoustic engineers on the planet, ELAN has just the right speakers for every area of your home.

Elios

19 in-wall and in-ceiling models in two distinct categories and designed to meet your highest expectations.

Architectural

Speakers for all around the home. From critical listening areas to hallways, there's a great-sounding Elios Architectural speaker that fits the bill.

Cinema

Specifically designed to reproduce the dynamic high-end audio required for home theater environments.

O Series

From the patio to the pool, ELAN O Series Outdoor Speakers deliver unbelievable sound. And their all-weather design makes them the ideal speaker for just about any environment.

Total Home Management with HomeLogic®

Control lighting and temperature from your iPhone®. Monitor video cameras and view security system events from your iPod touch®. Adjust your pool or spa settings from your PC or laptop. Set lawn and garden irrigation schedules from your Windows® Smart Phone. All this, and much more, is what our sister company, HomeLogic, does better than anyone else. And it all ties neatly into your ELAN system.

For more information go to homelogic.com.

As your family grows, so does your ELAN system.

Juli from our inside sales team

The Company & the People

ELAN Home Systems has been a leading manufacturer of innovative, award-winning multi room audio/video and home automation systems since 1989. Based in Lexington, Kentucky, the company was the first to integrate audio, video, phones and third-party products to create a seamless, easy-to-use “whole house” experience.

ELAN is also credited with being the company to create the whole-house system, and has since been first to market in numerous categories including multi-room audio, structured wiring and video tied to touch panel controls – to name a few.

Today, the company’s unique products provide complete lifestyle, feature-rich solutions, yet are flexible enough to be configured to fit the needs and budget of every homeowner. We have introduced hundreds of products in the last few years; each carefully designed to meet the discerning needs of our customers and A/V Design and Installation professionals.

Our people are incredibly passionate and completely dedicated to serving your needs both through products and world-class customer services.

ELAN products are distributed through a specialty channel of Dealers and Distributors throughout the US, Canada and 58 countries worldwide.

To learn more about ELAN, we welcome you to visit us today at www.elanhomesystems.com or telephone us at 859.269.7760 to find the nearest authorized ELAN Dealer in your area.

“ELAN led the development of the structured wiring, multi-source and multi-zone products that formed the basis for the ELAN company, which now bestrides the U.S. custom market as thoroughly as Ford does the highways.”
