

N800 4" Handheld Controller

Your Home. Music, movies, lighting, temperature, security and more. The N800 controls all your home's electronic systems with user-friendly ease.

Your World. True Internet browsing from a handheld device? You bet. The World Wide Web is at your fingertips with the N800's easy Wi-Fi® connection and high-resolution, full-color widescreen display with zoom and pan features.

In the Palm of Your Hand. The N800's ultra-slim, pocket-sized design, widescreen display and robust Wi-Fi connectivity make whole-house control and web browsing more portable than ever.

Powerful, Portable Control

Stellar color graphics displayed on a high-resolution widescreen display. Customizable screen layouts for user-friendly operation. Real-time status display of lighting, temperature and security systems. Instant "Now Playing" information from your favorite music sources, and more. The N800 gives you reliable wireless control of all your entertainment, theater, and whole-house systems, plus direct access to the

Internet, in a sleek hand-held package that makes it the ideal go-anywhere, do-anything controller for the entire house.

True Web Browsing

The N800's built-in Web browser and robust Wi-Fi® link make it easy to connect to the Internet; but its high-resolution color display, full-screen touch keyboard, zooming and panning capabilities are what make surfing the Web a pleasurable experience. Stream Internet audio and video. The N800 supports Flash® Player, allowing you to view the most vivid content on the Web. Built-in stereo speakers let you listen to Web-based audio while you're browsing.

Setting New Standards

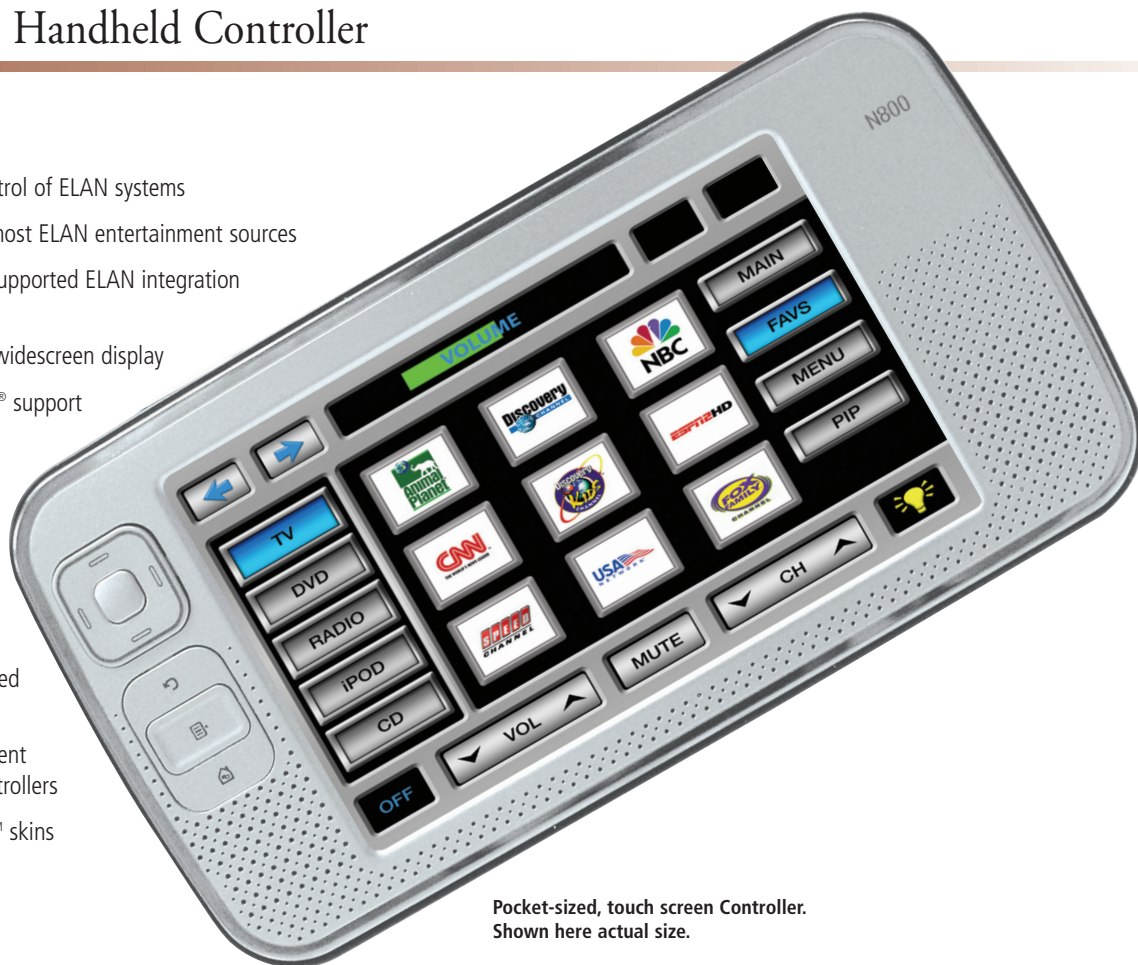

ELAN has been setting the standard for multi-room entertainment since 1989, providing user-friendly, state-of-the-art solutions for the enjoyment of all your favorite music and video anywhere in the home. Now, with the combination of advanced ELAN software and the reliability of world-class hardware provider, Nokia®, the N800 gives you broad control of your ELAN system from a powerful, user-friendly handheld device. You can even match the N800's on-screen "skins" to look and feel like other ELAN user interfaces in your home (VIA!® Touch Panels and Olé™ Touchpads) so that controlling the system is easy and familiar regardless of what room you are in. This new platform also opens up a realm of exciting new graphics possibilities for the future.

Release Notes

- One SS1 System Station is required for each N800 in a system unless additional N800s receive identical downloaded programs.
- Some inherent functionality of this product's platform, such as the built-in camera, video conferencing, photo viewing, and other functions have been intentionally disabled to reduce support and operational issues for Dealers and Customers.
- E-mail is supported through Web-based e-mail services only.
- Upon release, the N800 will support 2-way source feedback from the XM-R3 Satellite Audio Receiver and DTNR Digital Dual Tuner. ELAN VIA!®dj Digital Music Servers and VIA!migo™ iPod® Integration Dock applications are slated for possible future releases of the N800.
- The N800 will not support the VIA!dvdj DVD Controller.
- Proprietary software in the ELAN N800 is not compatible with other Nokia N800 or web tablet models purchased elsewhere.

ELAN Home Systems reserves the right to change hardware and specifications without notice.
