

VIA!® 7.0-EM 7" In-Wall Color Touch Panel/Video Monitor

Intelligent, User-Friendly Control. Like the rest of the award-winning VIA!® product line, ELAN's VIA!7.0-EM touch panel has all the reliability and smarts needed for complete control of all your audio, video and house-wide systems.

Video Monitoring. View security cameras. Watch the news. Get the latest weather, sports and stock updates. VIA!7.0-EM is more than just an awesome controller. It's your window to the world – right at your fingertips.

On-Wall Elegance. VIA!7.0-EM's slim landscape look, Standard and Euro-style wall frames and seven different color options bring beautiful décor-matching continuity to every room.

Award-Winning Features

The VIA!7.0-EM has all the features that made the time-tested, award-winning VIA!6.4 one of the best-selling in-wall touch panels on the market today, including one-touch access to your audio and video, lighting, temperature and security systems, real-time video monitoring, customizable layouts, room-matching screen motifs and wall frames, ease of programming and more!

Take Command

From sophisticated whole-house lighting, temperature and security systems to reliable IR control of all your audio/video components, the VIA!7.0-EM can do it all. It is compatible with every ELAN multi-

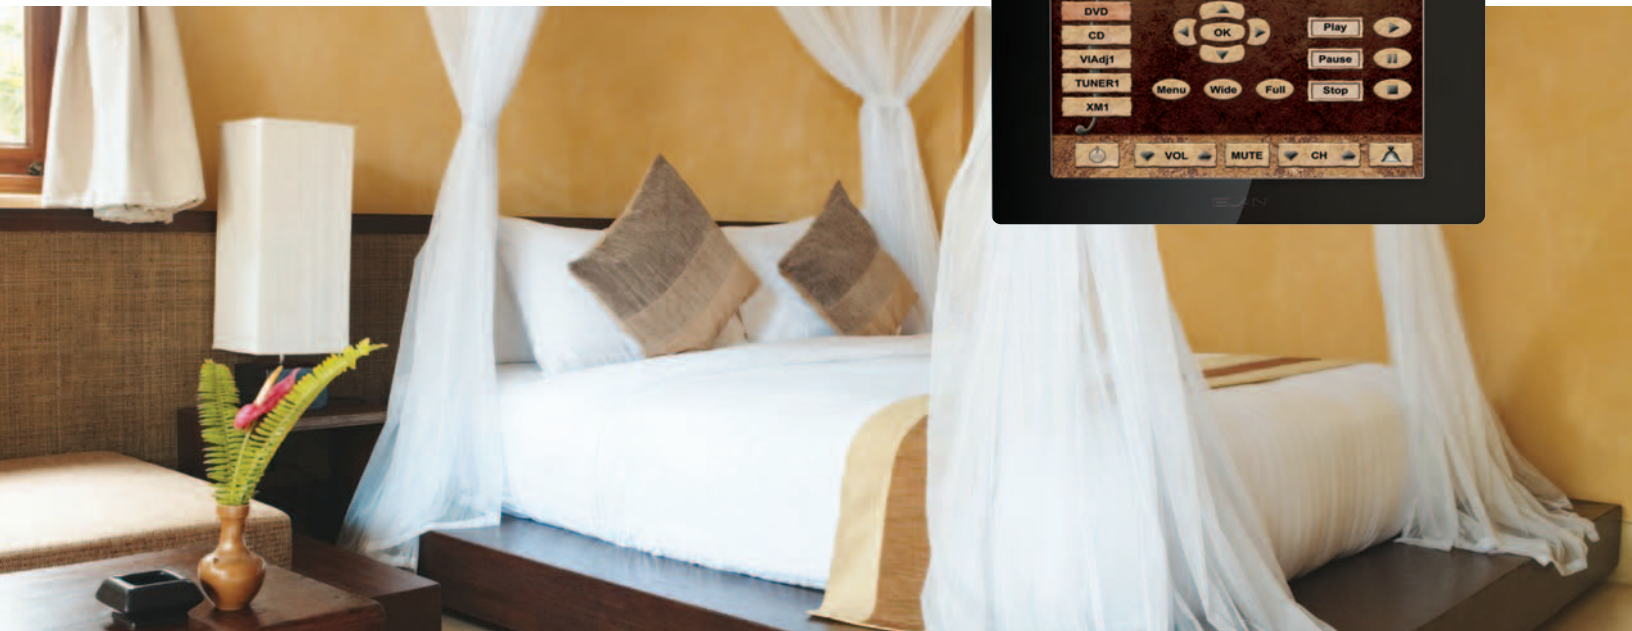

room controller and can also be used in almost any home system you may have, even ones made by other audio/video manufacturers. Take command of it all with the VIA!7.0-EM!

Stay Informed, Feel Secure

With its 7-inch diagonal viewing area and 16:9 wide-screen format, the VIA!7.0-EM is more than just a do-it-all user interface; it's also a convenient way to keep up on the latest news, weather or stock prices. More importantly, its live video monitoring capabilities provide you with the means to instantly view security cameras in and around your home. You'll always know what's going on with a VIA!7.0-EM.

Affordable Customized Control

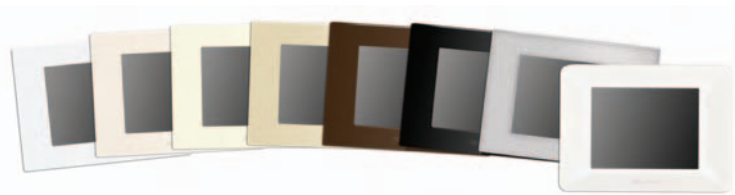

The VIA!7.0-EM provides more than custom-tailored control of all your electronics. Each touch panel can also be customized to match almost any décor. Two finely contoured wall frame styles, Standard and Euro, are available in seven different décor-matching colors: white, light almond, almond, ivory, brown, black & satin chrome. You can also choose from a colorful selection of on-screen motifs that further enhance the VIA!7.0-EM's aesthetic harmony with your environment. Intelligent, reliable, enlightening, attractive – all at a price that won't break the bank. What more could you ask for?
