

XP-8.4 8.4" Wireless Touch Panel

Powerful. A brilliant 8.4-inch display, beautiful graphics, extended Wi-Fi® range, an extra-long-life battery pack and more. The XP-8.4 Wireless Touch Panel has the power to do it all.

Wireless. Instant, wireless access to the Internet and all your home electronic systems.

Control. Music, movies, TV, lighting, climate and security. The XP-8.4 is the answer for fast, easy and reliable wireless control of all your entertainment, theater, and whole-house systems.

It's All In Your Hands

The XP-8.4 Wireless Touch Panel from ELAN is a powerful combination of wireless control technology, systems integration and automation for the home.

Bold and beautiful color graphics on this large 8.4-inch display make for an exciting, user-friendly experience every time you lay your finger on it. The high-brightness LCD display features stunning selectable "motifs" that allow you to customize the look and feel of the screen to match personal tastes, room décors and other ELAN touch panels in the home. And with 8.4 inches of diagonal screen area, each and every custom layout features large, easy-to-read buttons and text

for the control of audio/video components, lighting, temperature, drop-down screens, projection lifts, drapes, blinds and more.

Sleek and light-weight, the XP-8.4 fits comfortably in your hands and is easy to carry. The XP-8.4 ships standard with a deluxe tabletop recharge/docking cradle featuring a back-up Ethernet port and a USB port for easy connection of a USB keyboard or mouse for enhanced Web browsing. Also included is an extended-life battery pack for up to six hours of continuous use.

And Right Before Your Eyes

The XP-8.4 gives you real-time status display of lighting, temperature and security

systems plus instant "Now Playing" information from your favorite music sources. Its built-in Web browser and robust Wi-Fi link make it easy to connect to the Internet, and its large 8.4-inch screen makes surfing the Web a pleasurable experience. The XP-8.4 lets you stream Internet audio/video and supports Flash® Player, allowing you to view the most vivid content on the Web. Built-in speakers and a headphone jack let you listen to Web-based audio while you're browsing.

Enjoy powerful, wireless control of your entire home with the XP-8.4 from ELAN.
